

# cooling solutions

Woodpecker supplies and installs only premium cooling solutions. Market leaders and household names, Daikin, Brivis and Carrier are the products behind our recommendation and installation.

**Woodpecker specialises in:**

- Ducted air-conditioning
- Ducted evaporative cooling
- Split system air-conditioning
- Reverse cycle air-conditioning

An onsite quotation by one of our experienced consultants will ensure you're not only getting the right product, but a guaranteed installation.

Daikin

# hydronic under floor heating

Hydronic underfloor heating provides the most comfortable, even warmth of any heating system on the market. It is economical to run and virtually maintenance free. The principle is some 2000 years old, but is still the system of choice in many European countries, accounting for 70% of heating installations.

The Woodpecker underfloor heating system utilises the highest quality components to produce a user friendly heating system for your home.

Woodpecker's underfloor heating system heats mainly by radiant heat, emitted by the floor providing an even distribution of warmth.

**No cold spots, hot ceilings or cold feet!**

# heating solutions

Woodpecker is a heating specialist supplying and installing a diverse range of quality products.

**Woodpecker can supply:**

- Ducted central heating
- Ducted reverse cycle air conditioning
- Under floor heating systems
- Hydronic wall mounted panels
- Electric radiant panel heating
- Gas log fires
- Balanced flue gas log fires
- Wood combustion heaters
- Outdoor heaters
- Outdoor fireplaces

With leading brands such as Jetmaster, Regency, Heatmaster, Daikin, Brivis, Carrier, Clean Air, Coonara, Eureka and Chazelles, Woodpecker will have a system just perfect for you.

Heatmaster

Dekeizer

# fire side creations

A Customer once said *"Even when the house is empty, I never feel lonely when I'm beside my fireplace!"*

A fireplace is a feature; a focal point of the room or the house itself. It is peaceful and calm; it is friendship and warmth. A fireplace is many different things to different people.

**Woodpecker can supply and install the following:**

- Wood log open fireplaces
- Wood burning combustion
- Gas log balanced flue
- Gas log open

Each of these systems comes in many different sizes and models, all with their own heat output and characteristics. Woodpecker's showroom has all these options working and on display, speak to our consultant to see which system will best suit your needs. Woodpecker will even help in the design so your heating feature will be unique.

Woodpecker also has exclusivity to designer fireplaces such as Dekeizer glass fireplaces and Planika which are ethanol fuelled decorative glass fire features.

- Architects
- Painters
- Renderers
- Carpenters
- Tilers/Carpet Layers
- Stone Masons

**Woodpecker's services to you include:**

- On site inspections
- Designing systems from building plans
- Calculating the "load" and suggesting appropriate models
- Designing layouts and/or features for your heating and cooling needs
- Taking care of all facets of the installation
- Working together with your builder/tradespeople
- Preparing and supplying Builders Kits (or DIY) on a cash and carry discount basis
- A competitive finance option.

**"Style and Elegance backed by Quality and Efficiency"**

A simple motto, not always easy to live by, but we do!

Our growth over the years is due largely to word of mouth recommendations. This is testament that we fulfil our promises. We listen and make realistic suggestions. We quote a fair price. For those looking for a cheap deal we will be happy to provide details of our competitors! We will not compromise on quality of materials used in order to cut quoted costs!

Trusted by our customers many of Woodpeckers projects are carried out in homes without the customer ever needing to be on site.

No job is too big or too small, all jobs receive the same level of service. Woodpecker has created packages for homes, hotels and housing and commercial development projects.

Visit our new showroom for inspiration and for that personal service. Woodpecker worked closely with interior designers and builders, using the latest textured finishes from Porters Paints, Laminex, tile, stone and glass specialists. Our showroom has been purpose built for you to visualise and experience what can be achieved in your own home.

Woodpecker's website guides you through a virtual tour of our showroom. It also provides you with information on our latest products and how they work; so you can research the best heating/cooling solution for your home!
